The Alto-Shaam electric rotisserie is constructed of a heavy gauge, non-magnetic stainless steel with a sealed cooking chamber for heat retention. Low-e glass on front includes a handle with magnetic door latch. Spit rotation is controlled by one (1) 1/2 hp motorized disk that provides an incremental rotation jog and automatic stop when door is opened. The cook temperature range is from 250° to 425°F (121° to 218°C). Additional electronic control features include temperature display in Fahrenheit or Celsius; a product hold key with a temperature range of 140° to 210°F (60° to 99°C), cooking set-points from 1 minute to 4 hours; and emergency stop. The rotisserie has a stainless steel exterior finish and is furnished with 4-inch adjustable legs, 7 angled spits and a drip pan with drain.
